GPS Insight solutions:

GPS TRACKING

Provide visibility, actionable insights, and results for fleets.

DASH CAMS

Use powerful AI technology that captures exactly what you want to see.

ELECTRIC VEHICLES

Monitor the charging status and emission reduction of your EV fleet vehicles

With GPS Insight, you can improve:

SAFETY

Reduce accidents and distracted driving, improve driver coaching, exonerate drivers, and enforce safety policies.

ACCOUNTABILITY

Support environmental initiatives, validate citizen claims, and improve community image.

EFFICIENCY

Achieve green initiative goals, automate preventative maintenance, better reduce fuel consumption, maximize asset utilization, and operate within budget.
